

South Carolina's Employment Situation - June 2010

Released: July 20, 2010

S.C. Unemployment Rate Drops to 10.7%

South Carolina's seasonally adjusted unemployment rate was 10.7% in June, a drop of 0.4 of a percentage point from a revised 11.1% recorded in May, and 1.2 percentage points below the June 2009 rate. Over the month, the number of employed persons dropped 1,009 (-0.1%), and the number of unemployed decreased 8,609 (-3.6%). This resulted in a decrease in the labor force (employed + unemployed) of 9,618 to 2,149,605. This marks the fifth straight month of decline in the unemployment rate, and the fourth straight month in which the civilian labor force has declined.

Nationally, June's unemployment rate decreased 0.2 of a percentage point to 9.5%. The national civilian labor force also declined in June (-652,000), with losses in both employment (-301,000) and unemployment (-350,000).

The monthly establishment survey in South Carolina showed a loss of 3,000 nonagricultural jobs in June. The Government sector (-10,300) accounted for most of the loss as state and local schools released staff for the summer recess. The private sector partially offset the Government losses with a modest gain of 7,300 jobs in June. Leisure and Hospitality added 6,200 jobs reflecting increases in tourist activity. Other private sector gains were recorded in Retail Trade (+1,800), Construction (+900), and Manufacturing (+500). Losses in the private sector occurred in Education and Health Services (-2,000) and Professional and Business Services (-1,200). The overall job count was 14,100 above the year-ago level, but still almost 100,000 below pre-recession levels.

"The four-month decline in the labor force continues to be a major concern," said John L. Finan, Executive Director of the Department of Employment and Workforce. "The drop in our state's jobless rate has been largely driven by the unemployed dropping out of the labor force. We still have a long way to go in increasing consumer confidence which will lead to increased demand and more job growth."

S. C. Department of Employment and Workforce John L. Finan, Executive Director
